## Google Play Store Online Shopping

A: As per Mr. Ray's answer At the time of the extraction I was on the windows 10 insider preview. When I checked on the control panel the windows version was set as Windows 10 anniversary update (version 1507) while the system program had the OS build number as 1503. I followed the instructions as given on the page and when I tried to install the update it was not recognized. I downgraded to the windows 10 OS build 1511 and followed the instructions as given on the given page and the update was installed. Share this Dissertations -----
